

Enchantress Hints and Tips ...

Enchantress will be shown in full color with all tips and tricks in the INTERNATIONAL DOLL fantasy issue coming up.

The part of the class I can explain though - is the hair and the wonderful metal *faux* enameled breast plate.

HAIR

1. Glue a realistic hairline
2. Take your conditioned viscose, and slide through fingers to get rid of any frizzies
3. Lay strip of LIGHT BLOND VISCOSE across top of head - think spiderweb thin
4. Now lay main strip of viscose (you can repeat step 3 with as many layers of blond as you want for a multi highlighted look) across head
5. Glue small line of glue from ear to ear and lay viscose across this.
6. Now that your wigging cross is set - gently press into glue and let dry. When dry flip up front edge and sides and twist into a bun on her head. Cut off excess and glue down flat on her head.
7. Take a belt buckle - put it upright and glue on for her crown.
8. Take sides of hair and blow on it to see what direction it will take with the glue setting.
9. Take corsage pin - and gently pick out excess hair
10. Take plant mister and GENTLY mist hair and shape with fingers as desired.

Faux Enameled Breast Plate

This is worth the whole class (doll part) itself <G>

1. Take a roll of jewelry finding
2. Cut off one
3. Smooth edges with file
4. Put a thin piece of fimo behind it - and trim off excess
5. Take out a rhinestone chain, cut off one of the pieces and glue on for center focal point
6. Put glue on *spaces* and gently fill in with beads as desired
7. Bake fimo and it will stick just wonderful!
8. Cover with clear fingernail polish and WALA!!! AWESOME!!!

Below are the photos for this tip. Enjoy and Happy Creating!
